Environmental Services & Deployment Sanitization

Agricultural Wash · Equipment Decontamination · Wash Rack Remediation — NAICS 561710 / 562910 · PSC F999

About Us

SolutionsAe cleans, disinfects, and sanitizes tactical vehicles and equipment so Army units can clear USDA and host-nation biosecurity inspection before overseas movement. This is deployment-gating work: a brigade does not move until its equipment passes. We have delivered it at six installations across four states for the 82nd Airborne, the 101st Airborne's Division Sustainment Brigade, and three separate brigade combat teams - including equipment staged for EUCOM rotation.

Alongside the wash itself, we service the infrastructure behind it. Our Fort Moore contract covers the wash rack facilities that make installation-level sanitization possible, under NAICS 562910, where we hold the Environmental Remediation Services size-standard exception.

Core Competencies

- Agricultural wash of tactical vehicles
- Cleaning, disinfecting, sanitizing
- Host-nation biosecurity clearance
- Pre-deployment processing
- Wash rack servicing and maintenance
- Environmental remediation on post
- Crew mobilization and staging
- MICC contracting coordination

Why Units Bring Us In

- **Three-day mobilization demonstrated twice.** Fort Liberty and Fort Campbell were each awarded and executed inside a 72-hour window.
- **Scale across the full range.** From a $65K single-brigade action to a $2.43M armored brigade combat team wash, on the same crew model.
- **Current, not historical.** Most recent award January 2025, supporting 2nd Mobile Brigade Combat Team equipment for potential EUCOM rotation.
- **A niche with few qualified bidders.** Agricultural wash sits under NAICS 561710 and PSC F999 - outside the lane of most base-operations contractors.

Geographic Reach

Crews have deployed to installations in Texas, Georgia, Colorado, Louisiana, North Carolina, and the Kentucky–Tennessee line. Our Fort Campbell work sits roughly fifty miles northwest of Nashville, and we are actively expanding our presence in Middle Tennessee.
